HUMMEL BRAND HISTORY

SINCE 1923

1923

Albert Messmer develops one of the first football cleats in the world. With his brother Michael Ludwig Messmer, he founds the company Messmer & Co., that will go on to become known as hummel.

.....

1956

The visionary Bernhard Weckenbrock takes over the company. He creates a comprehensive brand identity and introduces the chevrons.

.....

1968

The first sponsorship deal is signed. The deal is with Duisburg, a team playing in the 2nd German Bundesliga.

1969

The first sportswear collection is launched. Sponsorships are signed and help boost sales. A rounder version of the bumblebee than the current one is created.

1970

hummel is introduced to the Northern European market.

1979

hummel signs a sponsorship deal with the Danish national team for the first time – a deal that lasts until 2004.

1988

hummel signs a sponsorship deal with Real Madrid and the club's biggest star, Emilio Butragueño. The deal makes hummel products even more popular.

1992

It's a surprising win, to say the least. The Danish national team takes the title at the European Championships having played Germany in the final.

1999

hummel gets a new owner – Thornico. Christian Stadil becomes part of the brand history. He launches a reintroduced, original sport style collection on the fashion market and hummel becomes a trendsetting sports apparel brand.

2016

After many years hummel once again sponsors a team in the German Bundesliga. SC Freiburg plays a sensational first season after returning to the first league and qualifies for international competition.

2019

In 2019, hummel substantiates its status as an original handball brand by signing the German handball club, THW Kiel – unarguably one of the biggest clubs in the World.

2020

In 2020 hummel team up with the historic football club Everton FC and return to the Premier League after 13 years of absence. The chevrons are back on the biggest football stage again.

2023

In 2023, hummel celebrates a century of existence, marking 100 years of proud heritage in the world of sports.

2024

Today, hummel proudly sponsor prominent football and handball clubs including Real Betis, 1. FC Köln, SV Werder Bremen, AS Saint-Étienne, Sunderland A.F.C., Celta de Vigo, Aalborg Handball, SG Flensburg-Handewitt and SC Magdeburg.

PARTNERSHIPS

**WELCOME TO TEAM HUMMEL - A GLOBAL FAMILY OF OVER
THOUSANDS OF TEAMS AND CLUBS, UNITED BY PASSION, CHARACTER,
AND THE SHARED VALUES OF SPORTSMANSHIP**

Please note that changes or updates may occur after this date.*

TOGETHER WE CAN CREATE POSITIVE CHANGE

*Just like in sports, we can only
achieve great results if we all
work together as a team*

SUSTAINABILITY

At hummel, we believe that responsibility is a joint effort. At the same time, the desire to make a difference through sport is deeply rooted in our heritage and this is also reflected in our products. As a result, all hummel Teamsport collections introduced after 2022 are produced entirely from 100% recycled polyester or 100% organic cotton (with the exception of socks).

This decision is part of our overall strategy to reduce our environmental impact and achieve our approved Science Based Target Initiative climate goals.

At hummel, we believe that together we can create positive change. By choosing our sportswear, you support a more responsible approach to production and manufacturing, where recycled materials and organic cotton play a key role. The majority of our PRO CLUB jerseys and shorts are already made from recycled polyester and we are committed to keep expanding the use of these materials in all our future products.

TARGETS FOR THE FUTRURE

hummel A/S commits to reduce absolute scope 1 and scope 2 GHG emissions 60% by 2031 from a 2021 base year. hummel A/S commits to reduce scope 3 GHG emissions from purchased goods and services by 55% per purchased item within the same timeframe.

hummel A/S commits that 33% of its suppliers by spend covering purchased goods and services will have science-based targets by 2026.

A photograph of three male soccer players in motion on a green field. They are wearing bright green long-sleeved training jackets with white zippers and black accents on the shoulders. The jackets feature the Hummel logo and a circular patch on the sleeve. They are also wearing black athletic shorts or pants with the name 'MATTHIAS' and a logo visible. The player in the foreground is smiling and looking down, while the others are focused on their run.

A full-page photograph of three runners in motion on a concrete bridge. In the foreground, a man with dreadlocks runs towards the camera, wearing a red long-sleeved shirt with black sleeves and black leggings. Behind him to the left, a woman runs wearing a white long-sleeved shirt and black shorts. Further back and to the right, another man runs in a white long-sleeved shirt and black shorts. The bridge has metal railings and concrete pillars, with a blurred background suggesting motion.

A man and a woman are posing in outdoor athletic wear. The woman, on the left, has curly hair and is wearing a dark hooded jacket and dark pants, leaning against a metal railing. The man, on the right, is wearing a dark quilted puffer jacket, a black beanie with a white logo, light grey shorts, white socks, and dark sneakers. He has his hands in his pockets. The background is a dark, industrial-looking wall.

A photograph of three men sitting on a wooden bench against a plain wall. They are all wearing black long-sleeved baselayers with different patterns: the man on the left has a small 'hummel' logo on the chest; the man in the middle has large grey chevron patterns on the sleeves and legs; the man on the right has a subtle pattern. They are all smiling and looking towards the center. The man on the left is wearing white socks and black sandals with white chevron patterns. The man in the middle is wearing white socks and black sandals with white chevron patterns. The man on the right is wearing black socks and black sandals with white chevron patterns. The floor is made of light-colored terrazzo tiles.

THERMO BONDED

INNER CARCASS BLADDER

The restricted carcass bladder does not allow the ball to increase its size. It ensures the stability of the outer cover material and makes the ball last longer.

POLYESTER LINING

The polyester lining strengthens the bond between the bladder and the foam layer in order to improve shape retention for a longer life.

HIGH PERFORMANCE FOAM LAYERING

The foam layer creates a soft touch feel and greater bounce along with high reactive speed off the foot.

PERFECTLY ROUND PU SURFACE

The Thermo Bonded footballs are made with no threat and no stitching. It's made with Heat Infused Technology (HIT), that increases the shape conformity and makes the ball perfectly round.

HYBRID & KINETIC

WEIGHT STABILIZING BLADDER

The fiber winded SR bladder is used to achieve correct weight and strong foundation for the outer cover material.

POLYESTER LINING

The inner lining prevents the foam from cracking and tearing.

EXTRA SOFT FOAM LAYERING

The extra thick foam layer in the Hybrid / Kinetic balls ensures greater durability and life along with reduced impact and a soft feeling on the foot.

RESISTANT PU SURFACE

Still being machine stitched, the Hybrid/Kinetic balls are sealed by heat pressure making the balls last longer and keep them perfectly round.

THE FIFA QUALITY PROGRAMME

The FIFA Quality Programme for Footballs ensures high standards by rigorously testing balls in lab conditions. Balls used in FIFA-organized matches must have a FIFA quality mark, guaranteeing consistent performance, every game.

To earn the FIFA quality mark, a ball must pass seven tests evaluating weight, circumference, roundness, bounce, water absorption, pressure retention, and shape durability.

FOOTBALL INFLATION GUIDE

PREPARATION

During wintertime we suggest to store the footballs at room temperature [20 – 25°C] for minimum 24 hours before the first inflation in order to secure optimal softness and shape.

Unfold the football with both hands and shake the bladder free.

VALVE OIL

Drip 1 – 2 drops of valve oil into the valve. It is important that valve-oil is used at every inflation as it makes the valve seal properly.

INFLATE

Position the valve upwards and insert the inflation needle straight into the valve. Always use a long pump needle to ensure the needle does not damage the valve or the bladder.

CHECK PRESSURE

- Inflate the ball to the recommended pressure.
- Recommended pressure is printed on the ball near the valve.
- Inflate slowly to allow the ball to gain its correct shape. Rapid inflation can damage the bladder.
- Use a pressure gauge to check the pressure of the ball.

FOOTBALL MAINTENANCE GUIDE

BEFORE EACH INFLATION

Always drip 1 – 2 drops of valve oil into the valve before inflation to ensure that it seals properly.

STORAGE

Store the ball at reduced pressure in a dry ventilated room at 20 – 25°C.

CLEANING AND DRYING

After use clean the football in mild soapy water and rinse with water. Then wipe the ball off with a towel and let it fully dry in a dry, airy place at 20 – 25°C.

Never dry the ball on or near a heating device.
